Total Snow Accumulation Today

Timing, Snowfall, Impacts Today

Timing:

- Snow this morning, diminishing late this morning. Areas of freezing drizzle and flurries this afternoon

Snowfall:

- Around 4 inches in the Warning area in south-central KY. Accumulations of 1-3 inches in the Advisory area

Impacts:

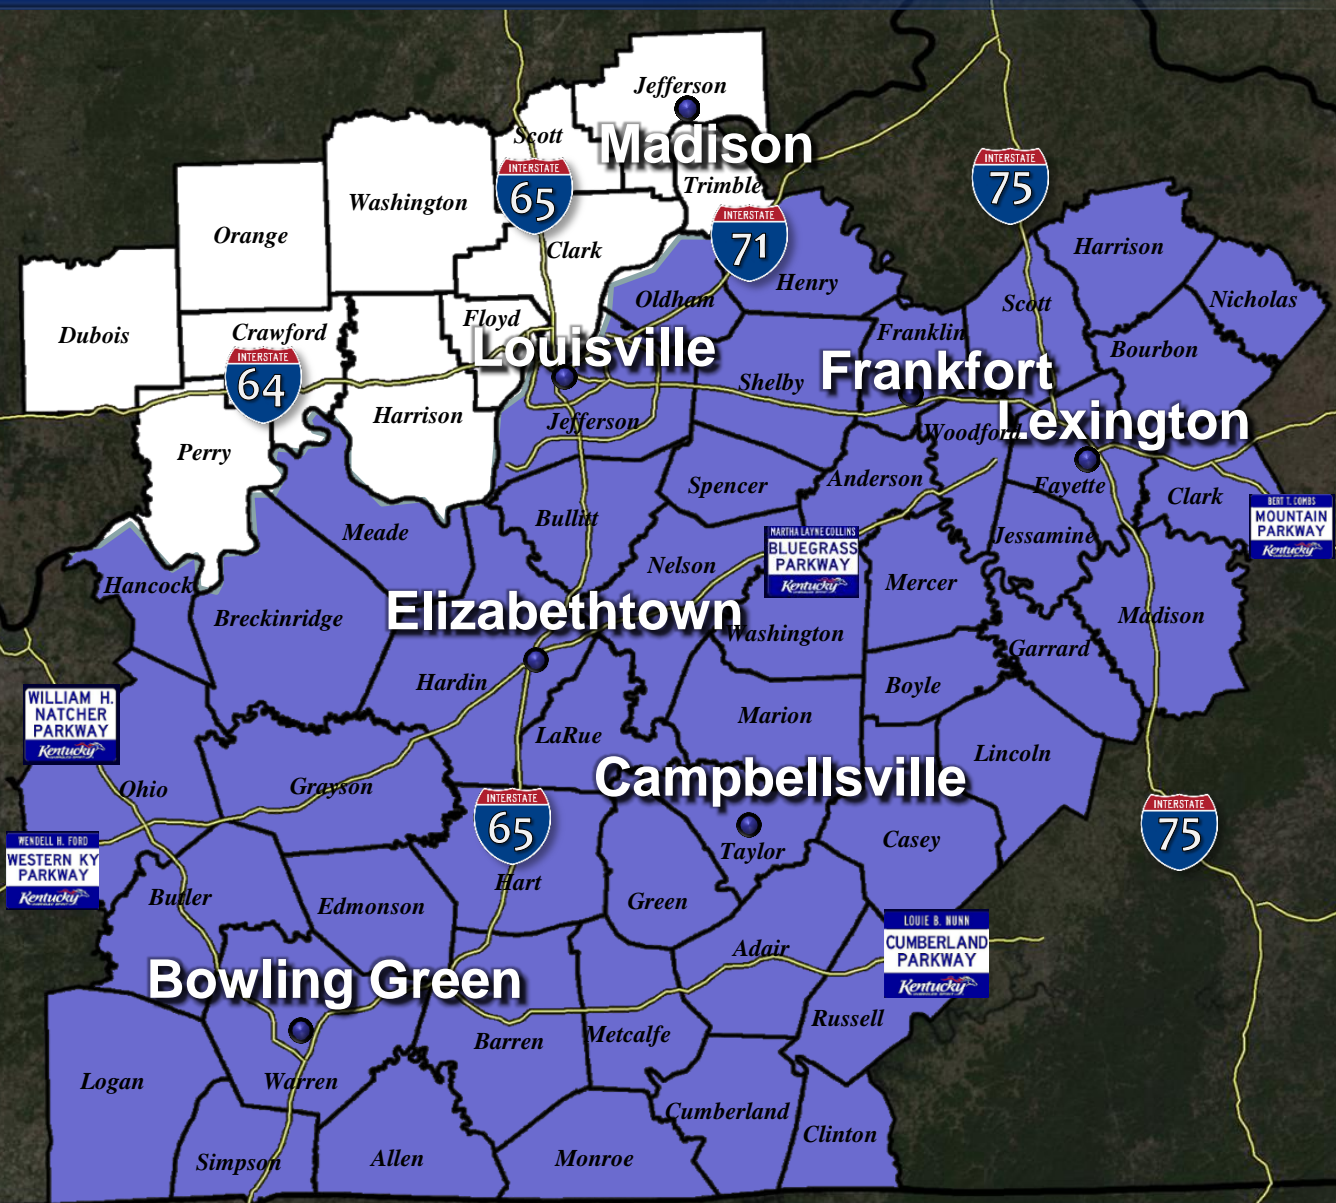

- Roads this morning will be snow covered and hazardous
- Main roads should improve this afternoon, but secondary and side streets may remain snow covered and slick
- An additional light glaze is possible from areas of freezing drizzle this afternoon

Next Winter Storm Should be More Significant than Today's

Lighter snow expected in south-central Indiana. No WATCH at this time.

Winter Storm WATCH in central Kentucky Thursday night thru Friday night

Timing, Snowfall, Impacts, Confidence

Thu Night – Fri Night

Timing:

- Precipitation moves south to north across central Kentucky Thursday night. Precipitation affects the whole area Friday and Friday night

Precip:

- Snow expected over south-central Indiana and north-central Kentucky
- Freezing rain and/or sleet over central/south-central Kentucky Thursday night changes to snow Friday
- Snow could be heavy at times over portions of central Kentucky Friday

Impacts:

- Very hazardous road conditions likely Thursday night through Friday night

Confidence:

- High confidence in winter storm occurrence Thursday night through Friday night
- Increasing confidence of significant snow accumulations over parts of central KY
